**A Suggestion.**  
The highway commission proposes to  
construct by a new route an earth road  
from the city to the north end of the  
state, and a few hundred dollars  
will be spent upon it this season. Next  
year the road will be widened and  
still further, and in the course of  
a few years there will be finished for  
the entire distance a substantial earth  
road, well graded, well protected and  
well oiled, which will be strong enough  
for all heavy uses and durable for au-  
tomobiles. Instead of waiting for sev-  
eral years, why do not the citizens fol-  
low the example of those of Iowa, who  
by volunteer service recently built a  
model highway a distance of 350 miles  
in sixty minutes?—Boston Transcript.

**No Haste.**  
Starting the national savings banks is  
not a matter of haste. While a Massa-  
chusetts man, he need be in no hurry  
about establishing them here. Our peo-  
ple are not in need of "good two per cent.  
investments." Senator Cummins, it may be  
noted, is not in a hurry to establish them.  
He is pictured that state as one of  
those in the country which had the  
most money in the world. It will soon be  
time for those who have long urged this  
project to justify its existence.—Boston  
Patriot.

**Goat Meat.**  
Twenty thousand pounds of goat  
meat is consumed in New York city  
now because of the high prices de-  
manded for beef, lamb, mutton and  
pork. It is being at five and six  
cents a pound lower than mutton, and  
no effort is being made to violate the  
law by passing it off as mutton. Most  
of the goat meat is used by the poorer  
classes, who say they like it fully as  
well as the higher-priced meats.
